

Dishwashing

Because not everything is just a dish.

It is precious, fragile, carefully protected for decades, holding more memories than food and a witness to your family at its most natural. Treat your crockery to the dishwasher it deserves. And as with truly great cooking, some modern tableware proudly shows off the handcrafted techniques used to create it.

Our dishwasher 400 and 200 series sit seamlessly in a Gaggenau kitchen featuring all the little, and not so little, touches you have come to expect from us. From the intuitive controls, clear TFT displays, handleless push-to-open doors, Zeolite technology to clever loading options that adapt to large and precious items. All of which becomes beautifully and innovatively illuminated with a new, glowing, lighting concept that welcomes you to your glistening crockery.

Washing up is never going to be fun, but it can be made exceptional.

The dishwashers 400 series

A gentle nudge opens the handleless door, bathing you in a diffuse light as baskets are gently glided out on smooth running rails – a little push and the cushioned closing occurs. All is designed to protect your delicate glass and porcelain whilst deceiving you into thinking you are doing something far more special than mundanely loading the dishwasher.

Choose from two heights, 81.5 cm or 86.5 cm, with flexible hinges available for longer furniture fronts. Liberal with space, powerful and quick, it is also smart. Offering a multitude of washing options, a flexible basket system, clever long-stemmed glass holder and Home Connect.

This is an accommodating space, where great care has gone into every folding spine and adjustable rack. Zeolite technology reduces the eight programme times, enhances drying and decreases energy use. This series is skilful, it can even project the remaining time of the programme onto the floor, on models without flexible hinges.

The innovative lighting concept softly illuminates, revealing the carefully cleaned contents. Emanating from deep within, it highlights the sparkle of the dishes and presents your tableware in a new light.

The control panel with TFT display details the eight wash programmes with five options. While some are guided by internal sensors, they can be combined to operate on Power or Intensive yet be sensitive with the delicates.

Innovative Zeolite technology helps all our dishwashers within the series achieve their speed and A+++ Energy efficiency class*. An eco-friendly mineral that absorbs moisture as it releases heat, Zeolite helps wash and dry a full load in under an hour and protects delicate glassware by drying them at a lower, gentler temperature.

As powerful as the range is, it is also quiet and delicate with a push-to-open and cushioned closing system. Smooth running rails are on two or three levels, upper baskets can adjust to three heights and the cutlery drawers can be enlarged to hold items such as cooking utensils and espresso cups. For ease of use, the interior is perfectly illuminated.

*At a range of energy efficiency classes from A+++ to D.

The TFT display

Two models feature TFT controls in a stainless steel panel on the front of the fascia. They also offer a smart innovation if you are going on vacation or leaving your country abode: choose the automatic door opening function and at the end of their wash cycle they will open and air themselves and their contents.

There are both integrated as well as fully integrated dishwashers in the 200 series, all with an impressive energy efficiency class of A++ or A++*. Most offer a flexible basket system, folding spines, smooth running rails, special holders, over extendible and height adjustable upper basket and numerous intricate adjustments, so all of your kitchenware can be accommodated. To fit into your individual kitchen, flexible hinges are available on some models to allow for an extra length frontage and narrow plinths.

Six programmes, some sensor-controlled, which can be combined with three options, such as Power or Intensive. Or, given the technical skills of our Research and Development department, you could just choose one of our suggestions.

*At a range of energy efficiency classes from A+++ to D.

60 cm wide dishwashers are available as 86.5 cm and 81.5 cm tall units. The 45 cm wide dishwasher is 81.5 cm tall.

The extraordinary, becomes connected.

Gaggenau and Home Connect*

The difference is Gaggenau.

This is the beginning of the future of cooking. Aided by a digital device, the private chef can, for instance, pre-heat the oven, turn on ventilation, start the dishwasher, order accessories from the eShop, download digital user manuals and have a technician run a diagnostic check, all remotely.

Integrating into different home managements systems ensures the kitchen remains the heart of the digital home. The private chef can ask Amazon Alexa to prepare a cup of coffee and turn on the ventilation while checking remaining time of the oven.

- **Connect:**
Remotely control** and monitor. Enable remote diagnosis by an online technician.
- **Access:**
Purchase accessories via eShop, download user manuals and utilise our partnering network.
- **Integration:**
Compatible with different home management system.

This is just the start, explore the possibilities at home-connect.com.

*The use of the Home Connect functionality depends on the Home Connect services, which are not available in every country. For further information please check: home-connect.com.

**Not applicable for cooktops, cooktops are not intended for unattended use – cooking process must be supervised.
